- Demonstrates openness to change and ability to manage complexities and remains calm even under pressure
- Demonstrates positive and constructive attitude

**Scope of Work**

**Stop TB Partnership Scoping Study**

The Stop TB Partnership Forum Indonesia was established in 2013, to accelerate social and political action to stop the spread of TB in Indonesia. TB is still a prominent public health problem in Indonesia, and despite major achievements since the implementation of DOTS Strategy in 1995, many challenges still remain. The Stop TB Partnership Forum Indonesia consists of 65 member organizations/institutions from the following sectors: government, community-based, academia, professional associations, private sector, health care institutions, international partners and individuals. The Partnership Forum wants to improve control of TB, initiate collaboration at national and local government level, raise awareness through information dissemination and invest in research. However, it is looking for a way to work more effectively, with a larger impact.

The successful applicant will assist the program manager in the task to assess the Stop TB Partnership Forum's functioning as well as proposing recommendations to the Ministry of Health on immediate measures to decrease the number of TB missing cases in Indonesia.

**Duties**

- To participate fully in day to day work of the programme, specifically the TB project as well as in meetings and discussions of the entire office
- To conduct technical, literature and data review relevant to project as needed
- To conduct critical reading and situational gap analysis relevant to the project
- To provide assistance with the technical and administrative aspects of the project, including meetings, if needed
- To manage and oversee budget planning, resource allocation, and expenses
- To assist program manager in the development of work plan
- To contribute to the development of communication strategy
- To shape, execute and oversee the project management, planning, and implementation
- To track and evaluate progress towards strategic objectives
- To conceptualize program interventions as well as to write terms of reference and guidelines
- To facilitate the change process and conduct strategic organizational planning
- To conduct qualitative research as needed
- To perform any other assignment as deemed fit by program manager

### **How to apply**

Interested candidates should send their application, which includes resume and cover letter to the following email: [hrd@cisdi.org](mailto:hrd@cisdi.org) with subject SeniorPO\_TB\_CV
